

Leading company toward Dream and the Future

SANG HEE METAL CORPORATION

Automotive

Construction

Heavy Equipment

Machinery & Tool

Since 1988, SANGHEE METAL Co., Ltd. Has grown into a fastener-specialized production company with customer satisfaction first

Sanghee Metal Co., Ltd has been marking the best efforts on Korea automotive industry market, since 1988. We have been investing in facilities and human resources in order to improve our technologies and guilities. As a result, Sanghee Metal has been emerged as the top company of manufacturing FASTENER in automotive and general industry field.

Under our philosophy " A company that leads toward dream and future.", Sanghee Metal is continually developing its human resources and eco-friendly technologies for delivering our best value to the customer.

Thank you for your support.

CEO
Oh Chae Yong

1990's

- **1988.** 01. Establishment of SANGHEE METAL
- **1993.** 12. corporate conversion
- **1994.** 08. Drive factory automation (unmanufactured systems)

2000's

- **2001 .** 10. Designation of promising SMEs
- **2004 .** 06. Certification of SQ Cast Forging Quality (HYUNDAI/KIA motors)
07. Designation of exemplary and sincere taxpayers (National Tax Service No. 74)
- **2005 .** 03. Recognition of Clean business establishment
12. Certification of ISO14001:2004
12. Quality of certification of single PPM
- **2006 .** 09. Certification of ISO/TS16949:2002 (KMAR)
- **2009 .** 07. Patent registration in the cold forging sector

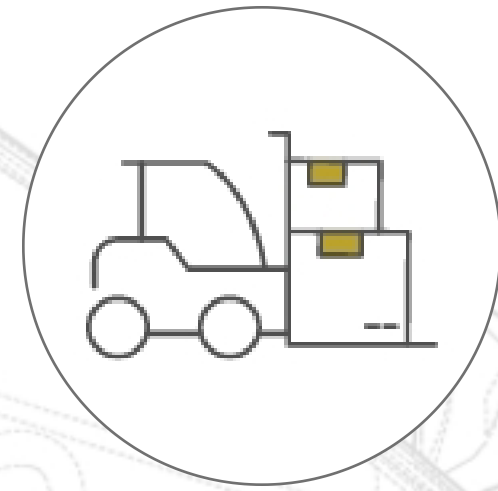

2010's

- **2010 .** 04. Certification of INNO-BIZ
- **2012 .** 12. Award of a million-dollar export tower
- **2013 .** 02. SQ Hardware Forging Quality Certification
- **2017 .** 10. Smartening of manufacturing sites
- **2018 .** 01. Certification of ISO16949:2015(KMR)
05. Certification of ISO14001:2015(KMR)
05. Obtain SQ Hardware Forging "A" Rating
12. Designation of promising small and medium-sized enterprises for export
- **2019 .** 02. Certification of plastic processing division of root company

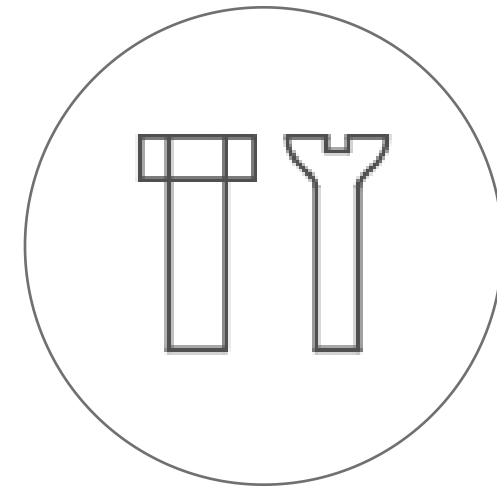

Present-2020

- **2020 .** 05. Certification of company specialized in materials, parts and equipment
- **2021 .** 04. Establishment of the SANGHEE METAL 2'nd Plant
08. Designation of a company specializing in root technology
11. Award of the medal of industrial Bronze Tower

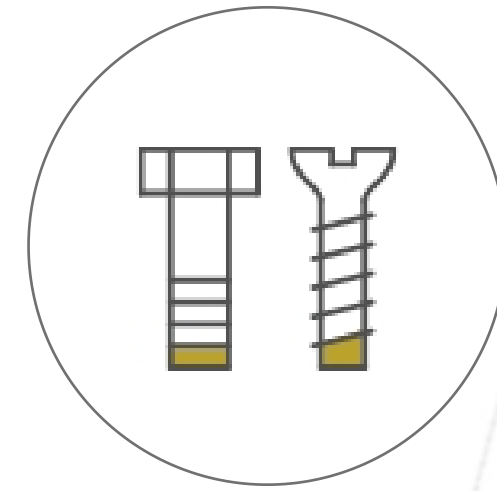

Receiving raw materials

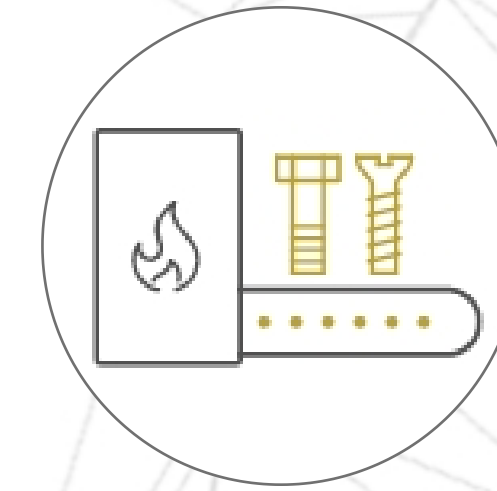

Forge

the process of molding the basic shape of a product

Rolling

the process of forming a spiral shape

Heat Treatment

The process of deforming the internal structure of the metal to obtain the desired strength

Surface treatment

The process of obtaining corrosion resistance and proper fastening friction of the product

Inspection and Packaging

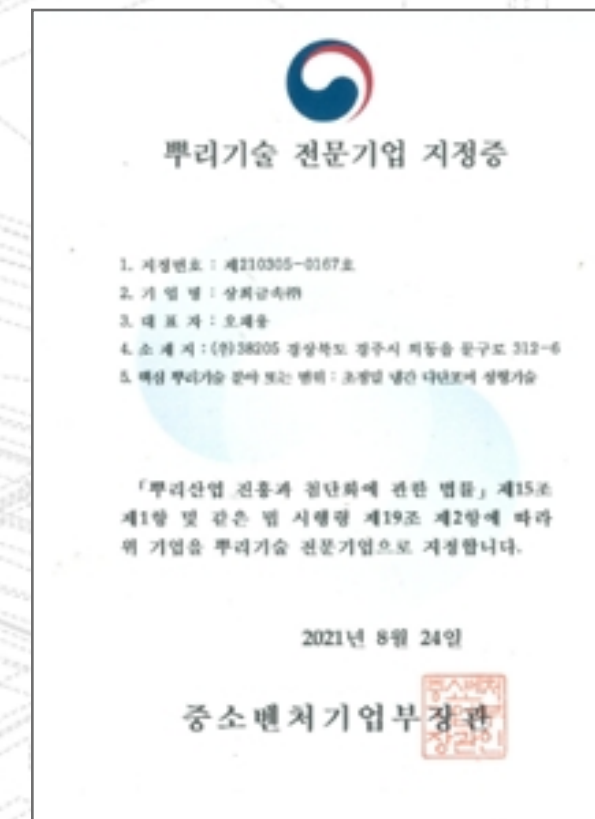

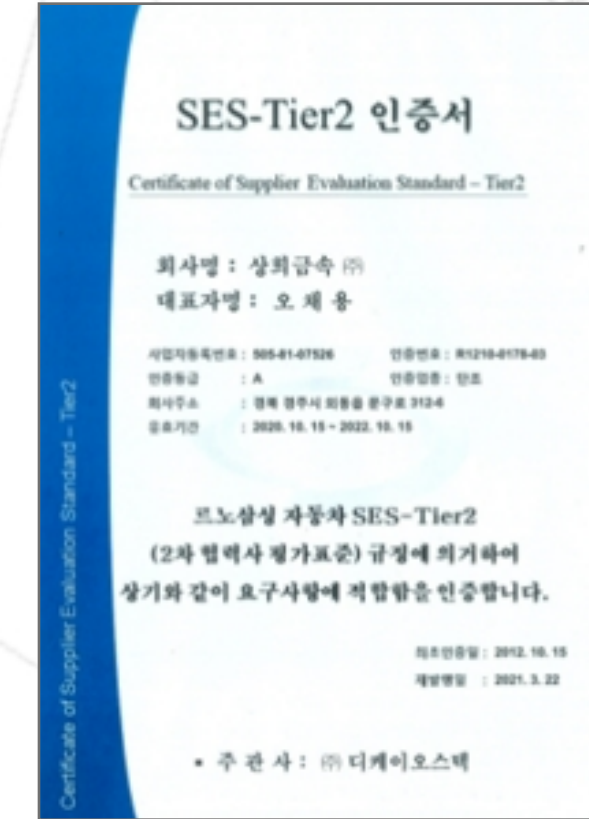

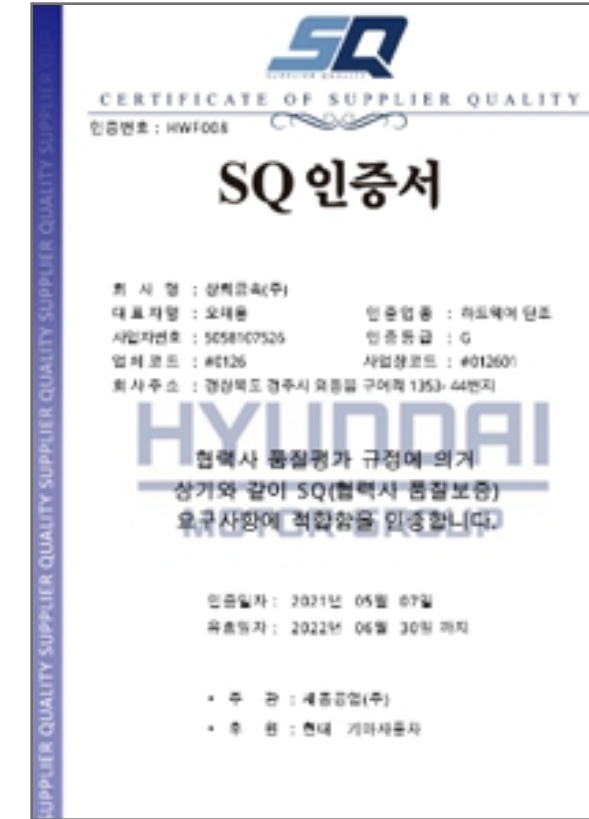

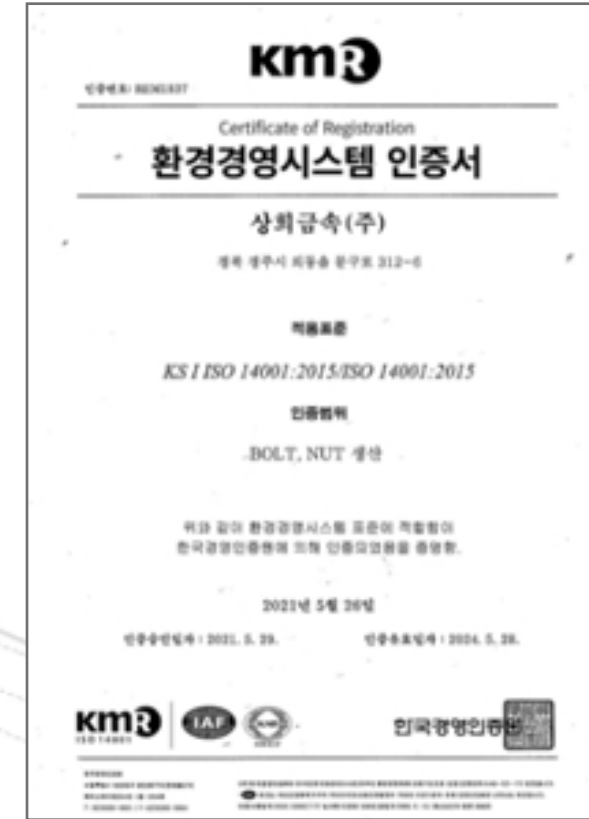

After the final inspection, the process of packaging according to the requirements

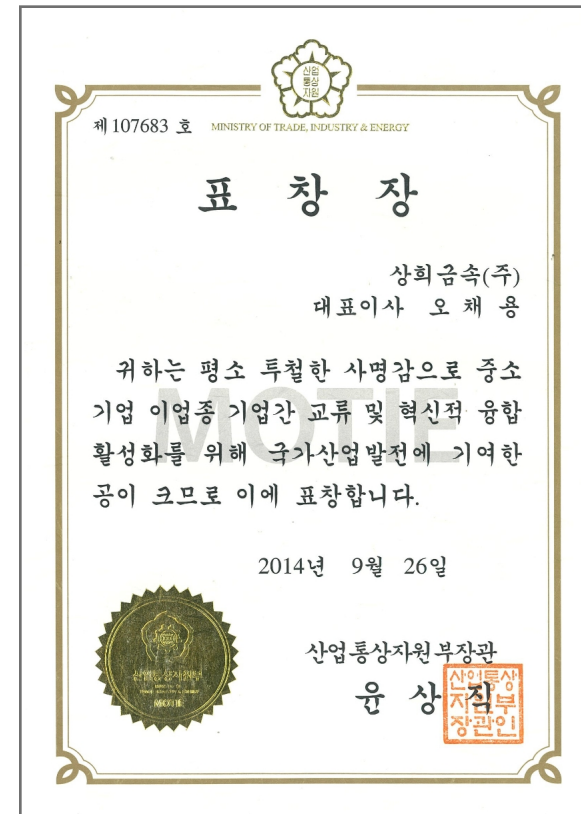

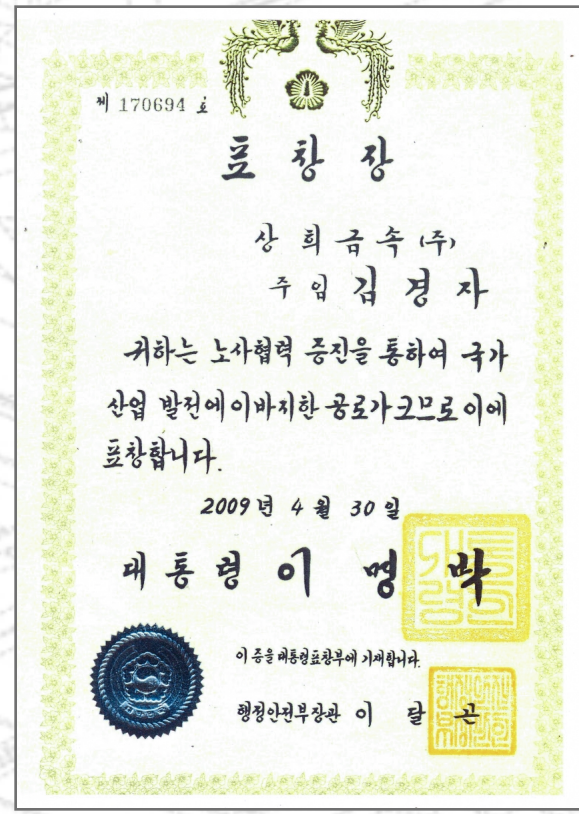

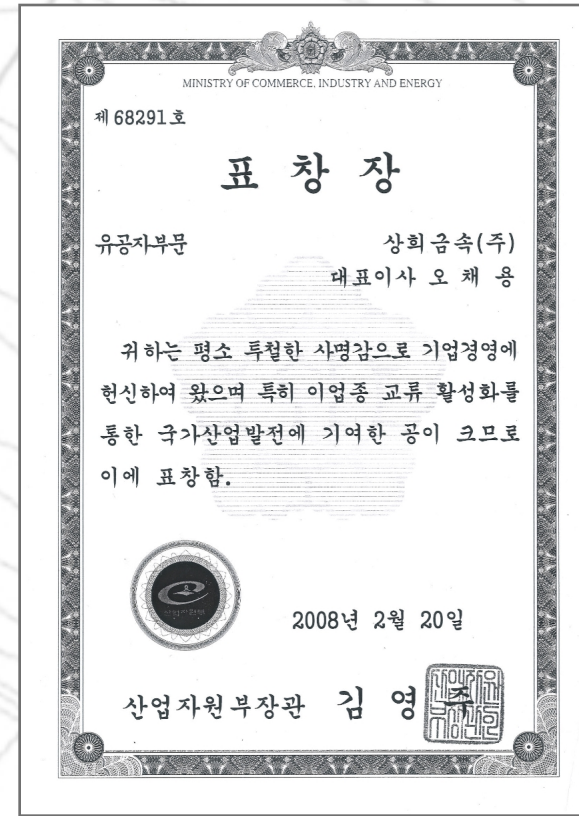

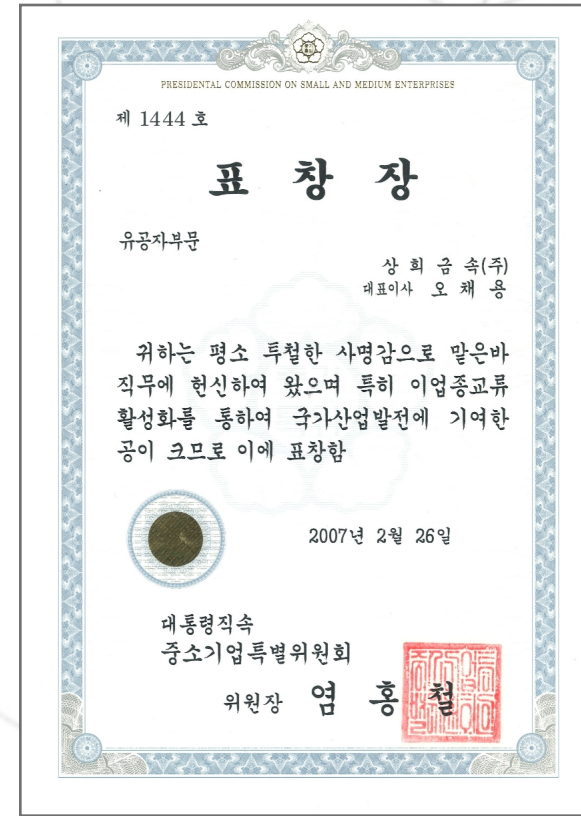

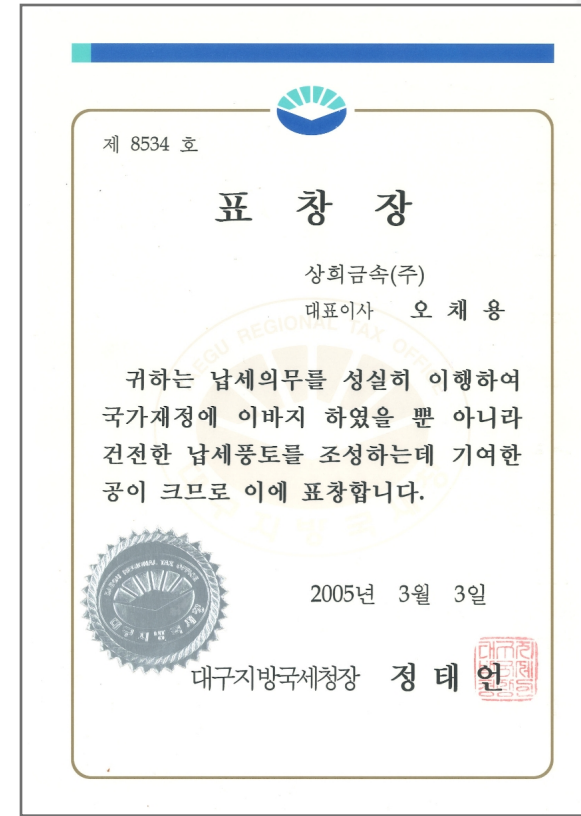

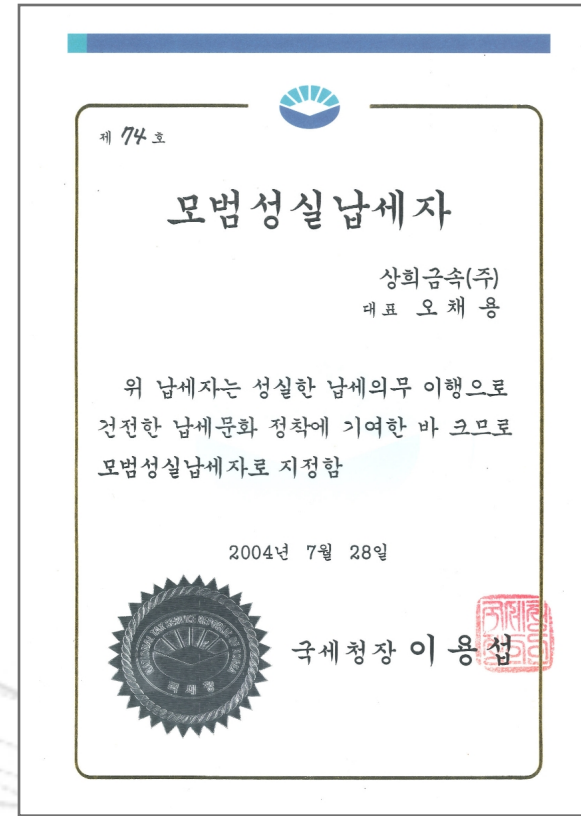

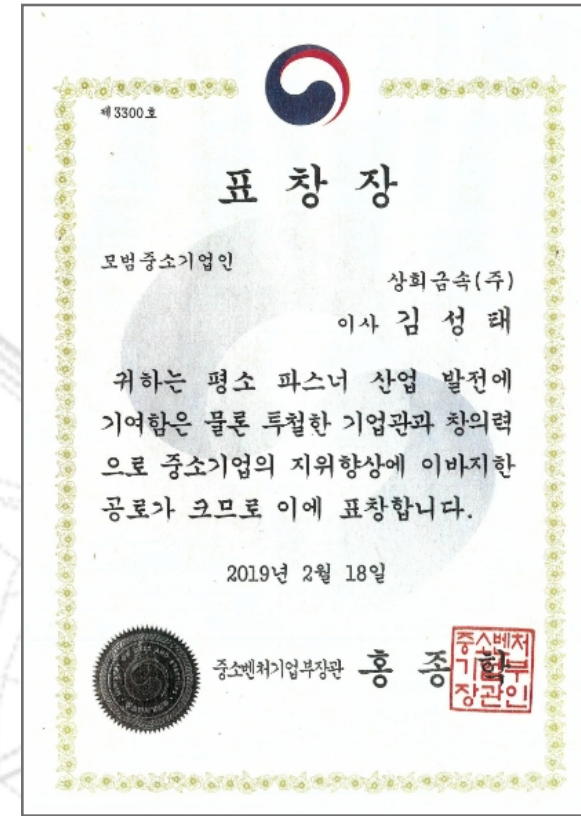

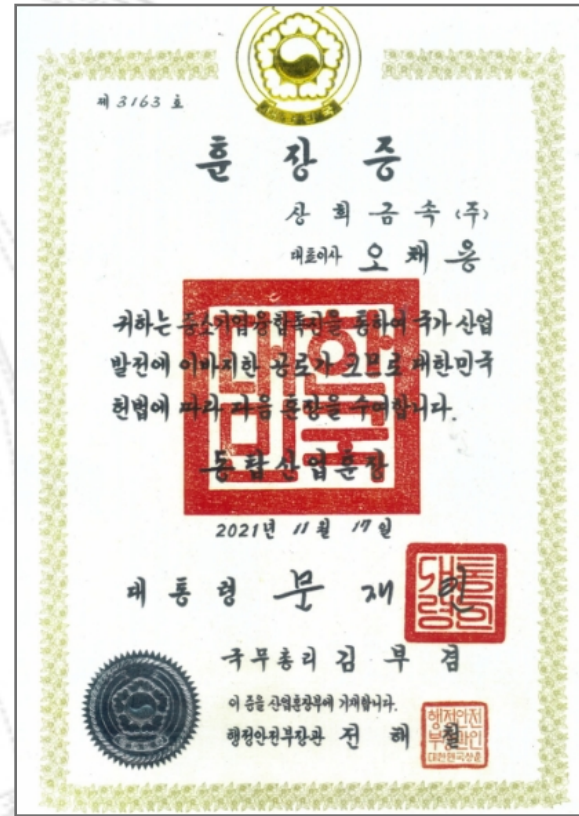

Shipment

Company / Certification & Patents

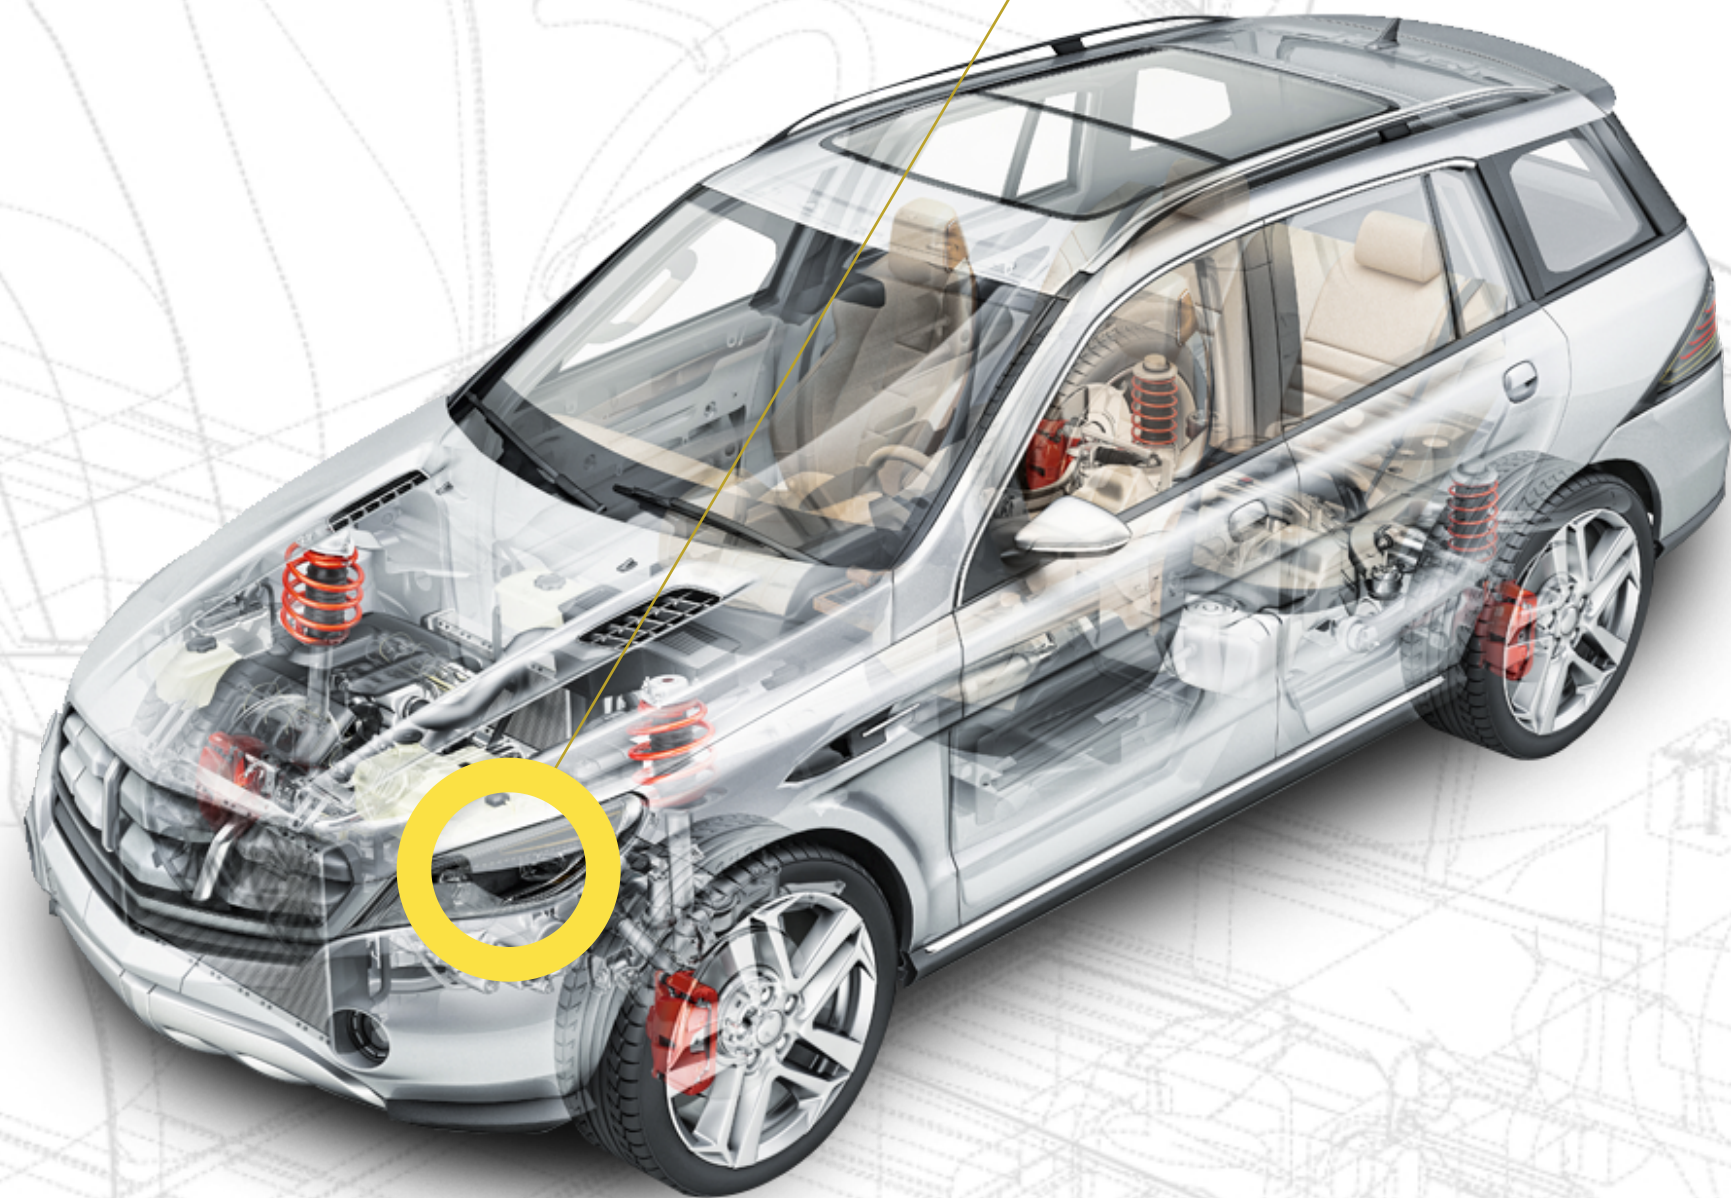

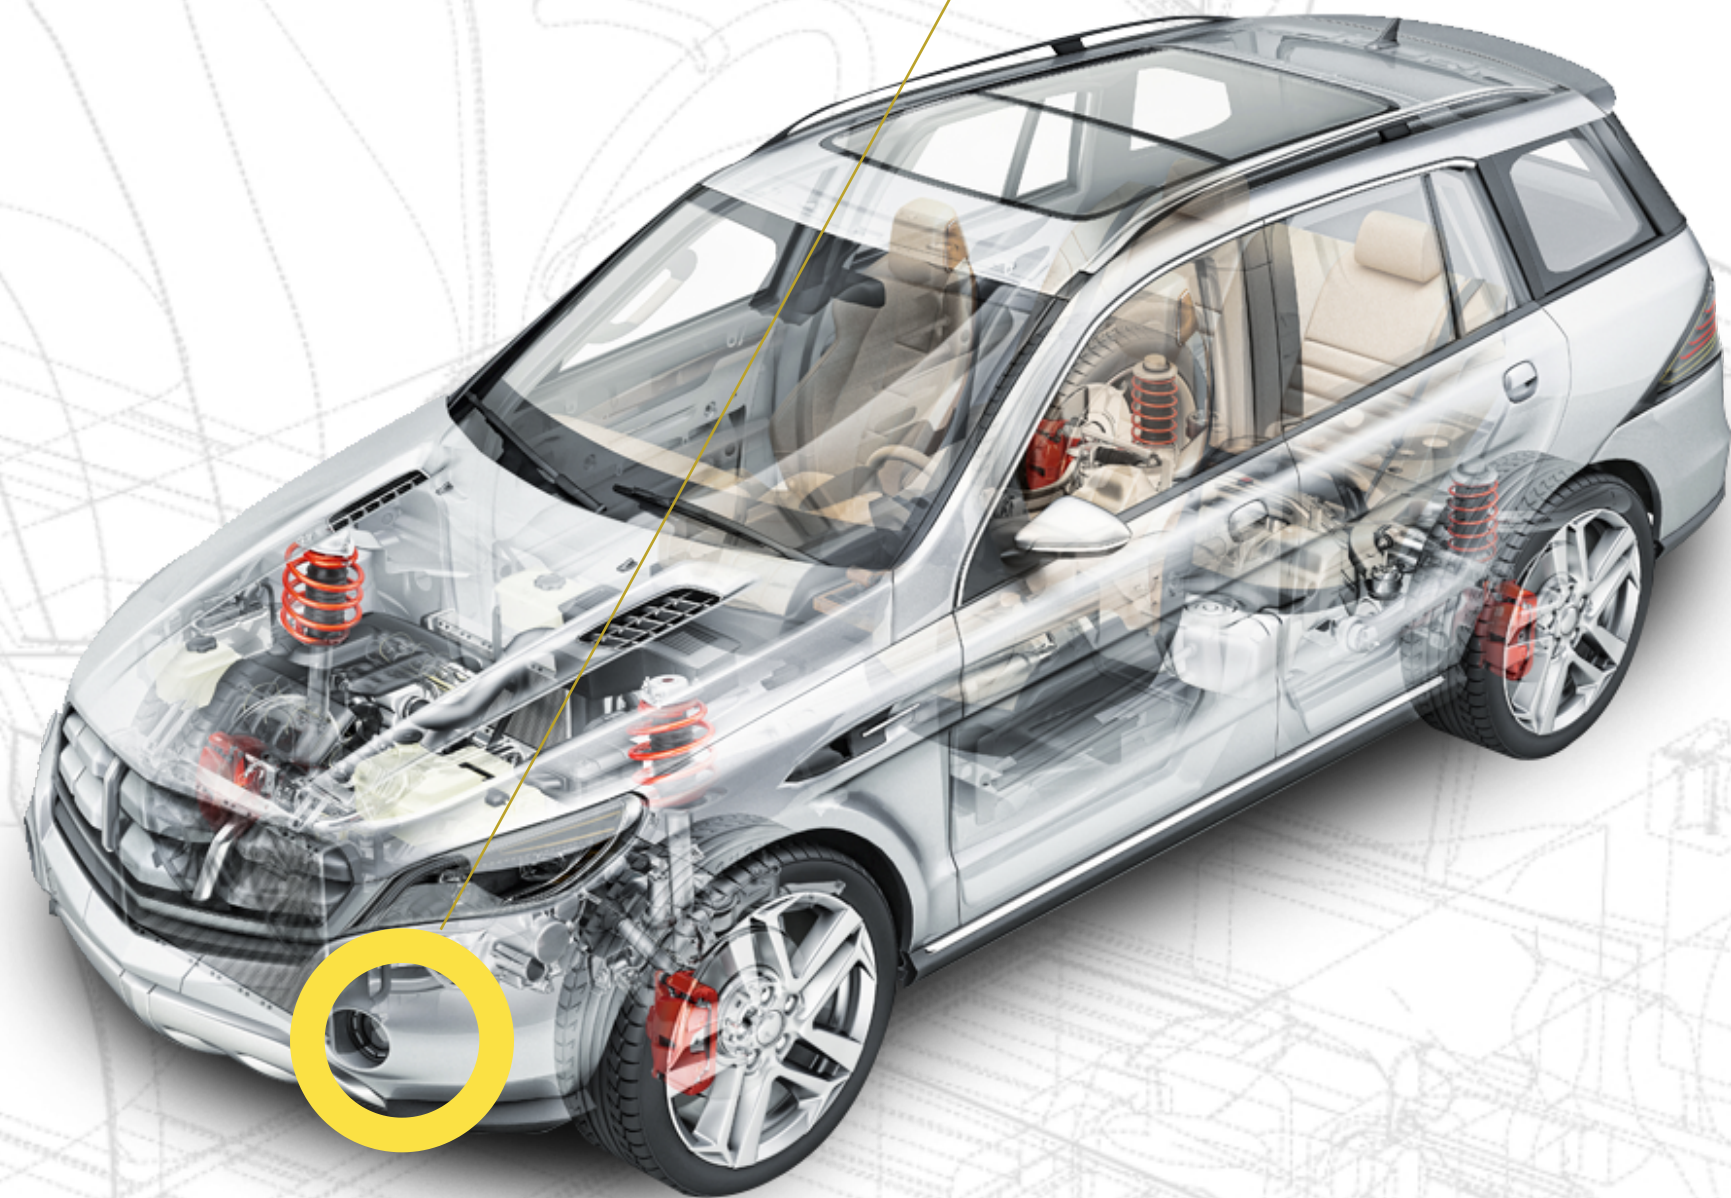

- **Products by Bolt Part Former**

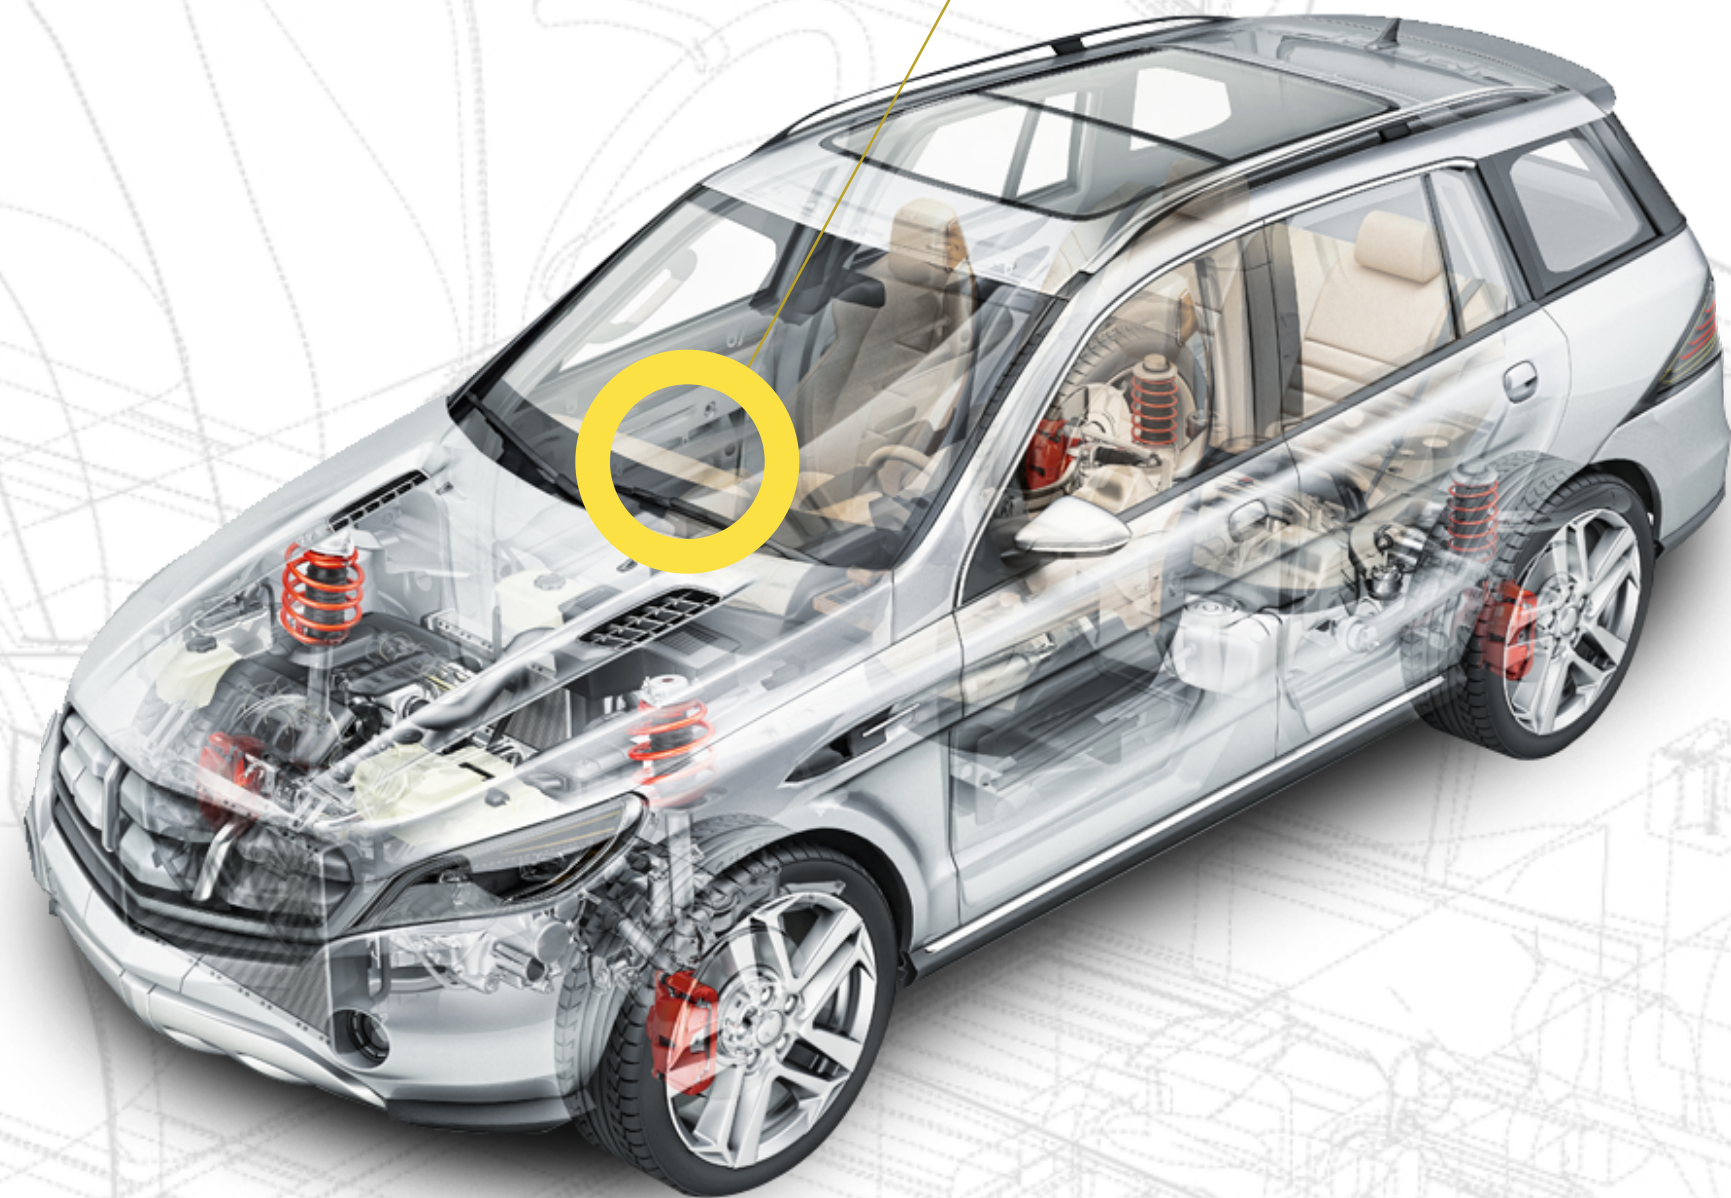

● Lamp Components

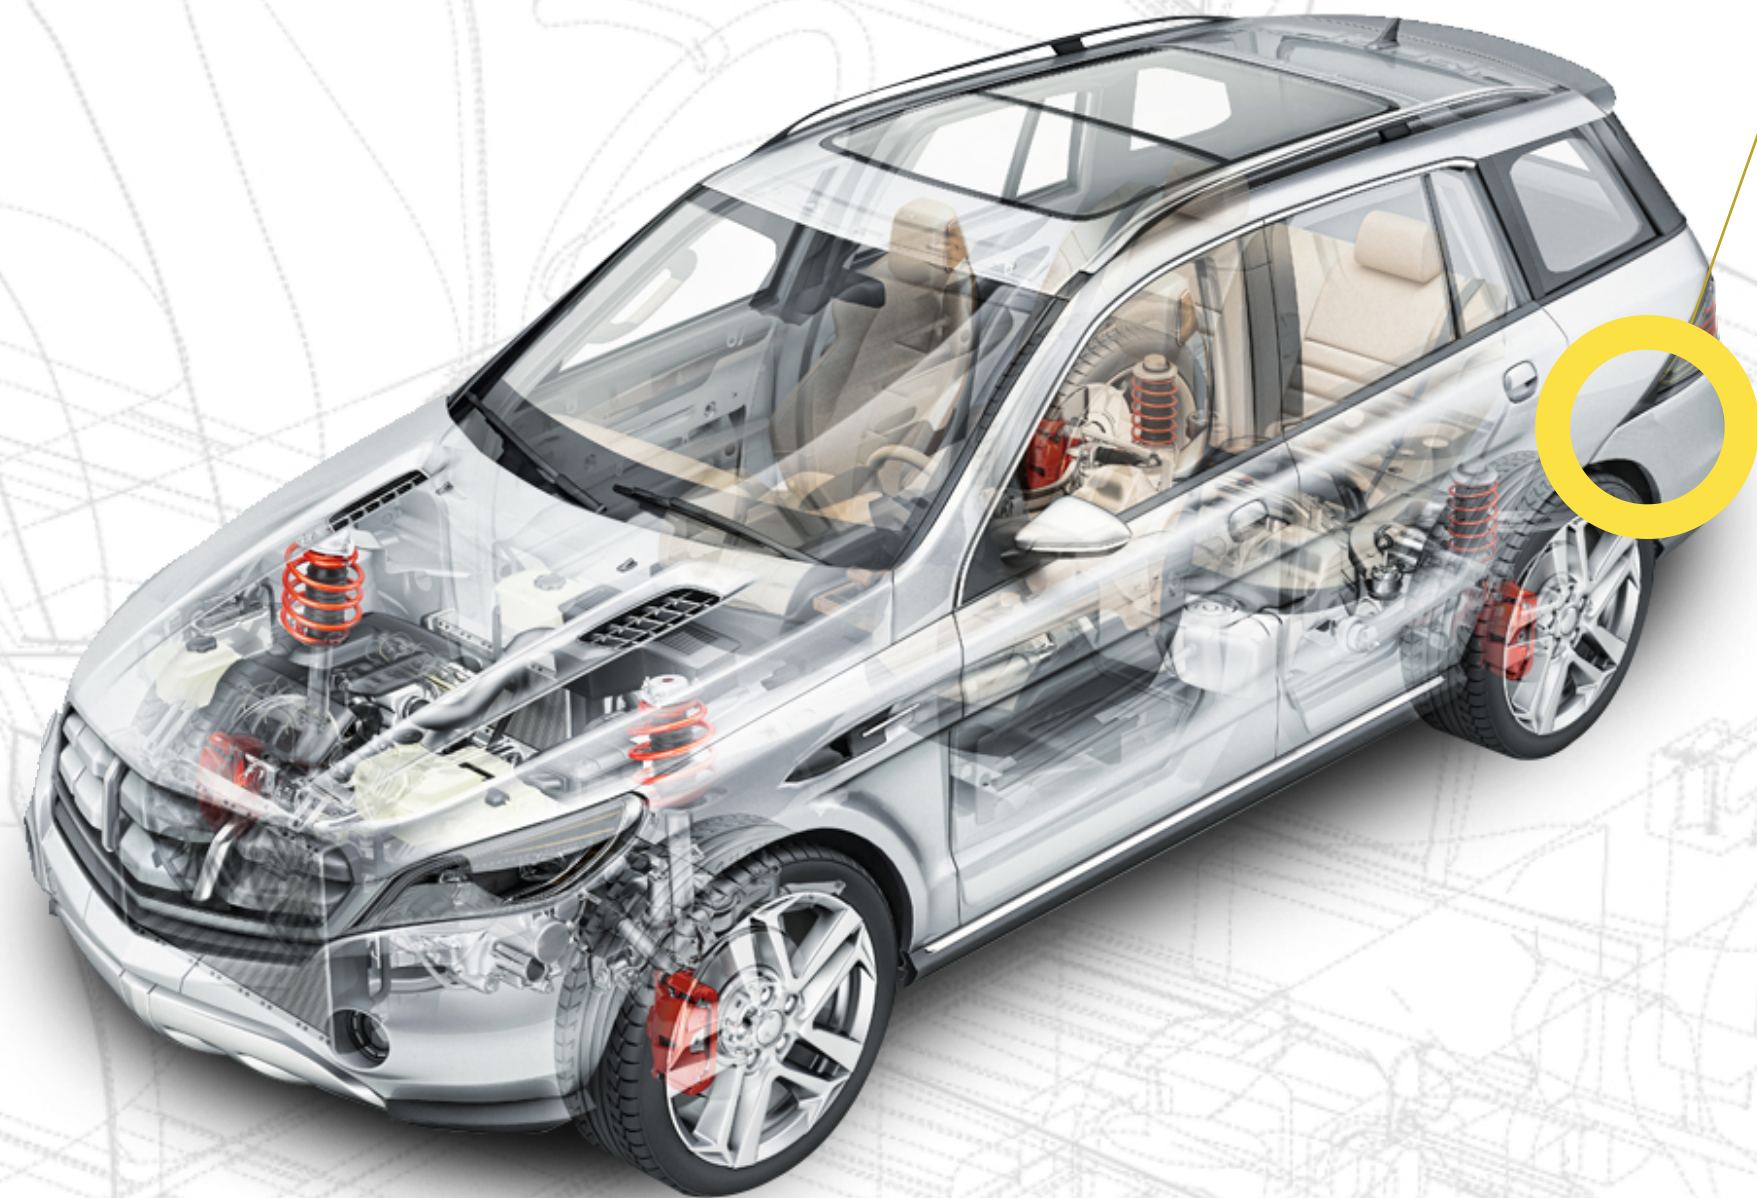

Bumper Components

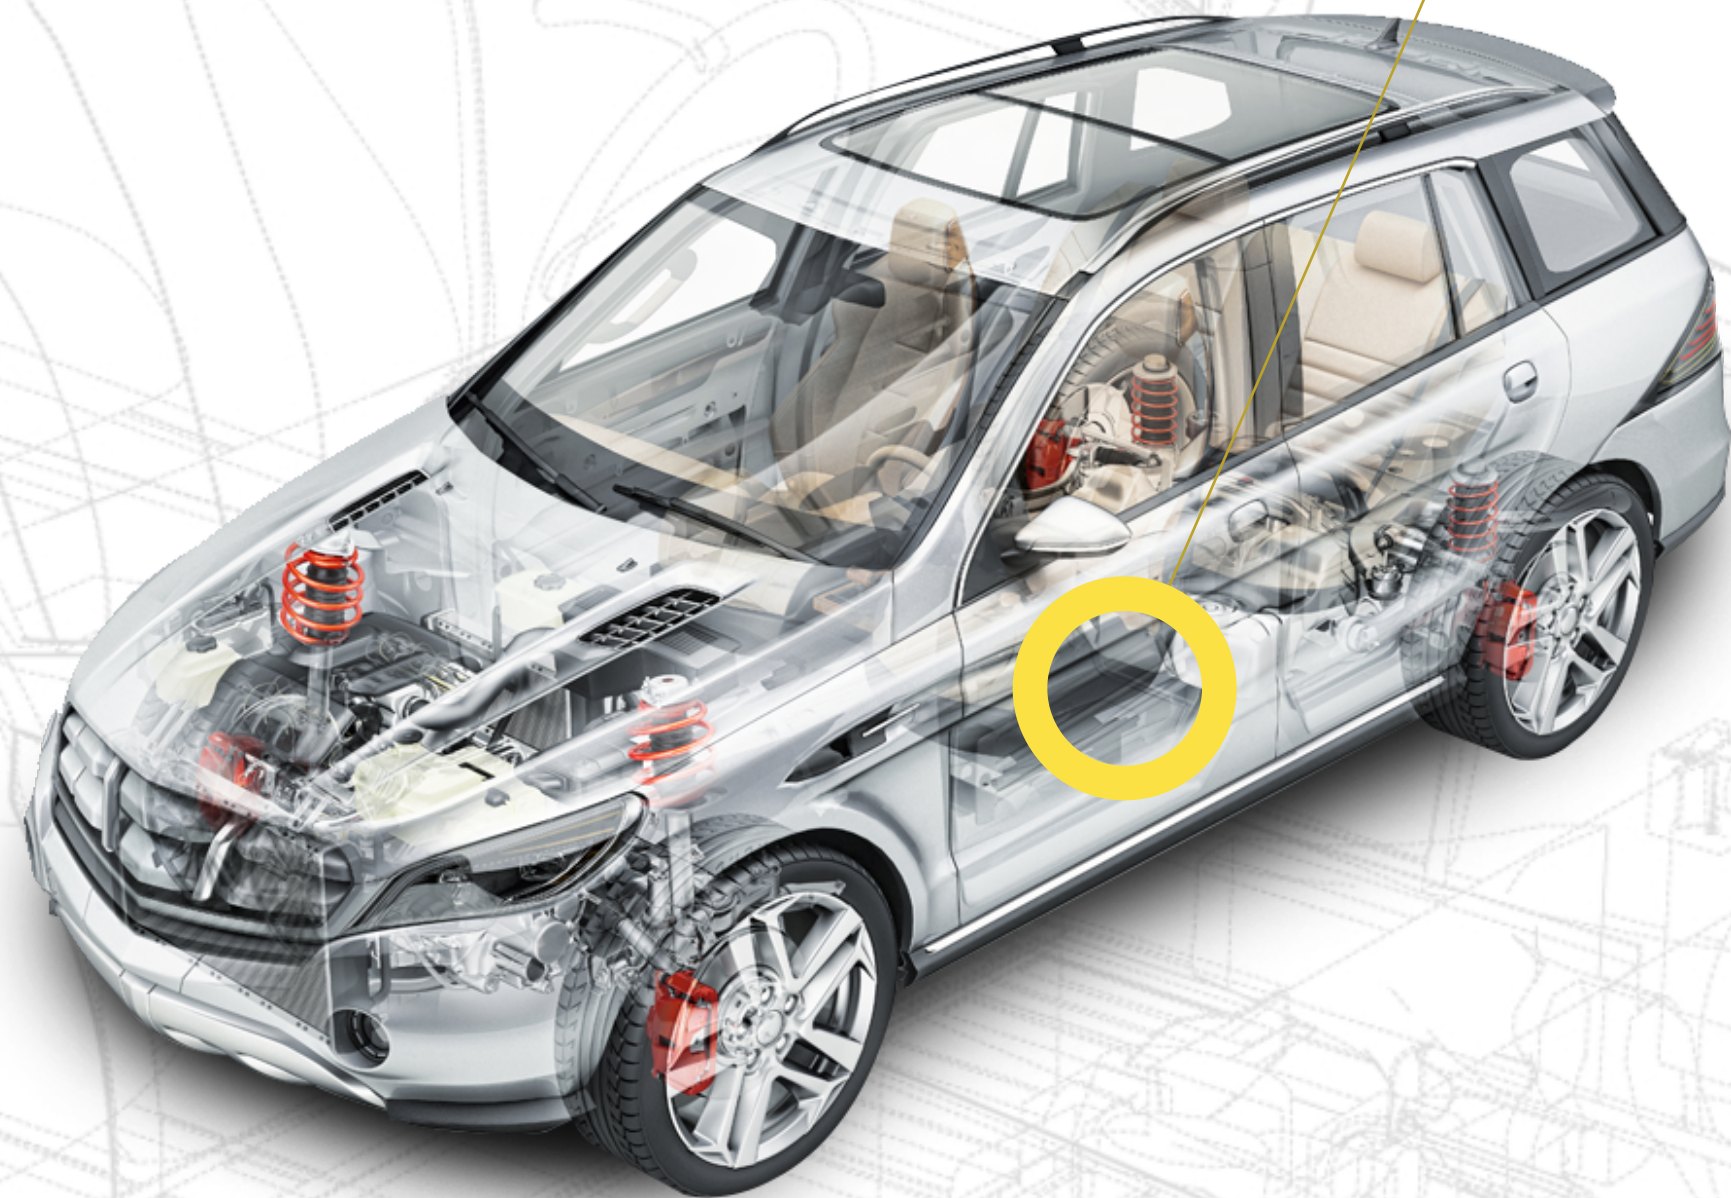

Interior Components

Exhaust Components

Suspension Components

- **Truck Components**

- **Heavy Equipment Components**

FASTENER Professional Production Company Delivers Customer Satisfaction

Sanghee Metal Co., Ltd. can produce products of various sizes based on excellent quality and technology.

Model	Process	Qty	Remark
Parts Former	Heading M/C	9	M12 – M37
Cold Heading Machine	Heading M/C	30	M3 – M16
Thread Rolling Machine	Rolling M/C	30	M3 – M20
Press	General M/C	2	50 – 160 ton
Screw & Washer Assembly M/C	General M/C	4	M4 – M8
Trimming Machine	General M/C	3	M8 – M12

Production Range		
Cold Formed Parts	Forging Station	4~6 Station
	Cutting Dia	12mm~35mm
	Cutting Length	8mm~250mm
	Die K.O	15mm ~ 210mm
Bolt	Thread	M5~M12
	Length	12mm ~ 120mm
Screw	Thread	M3~M6
	Length	8mm ~ 40mm

In an era of change, Global companies through constant technology and R&D

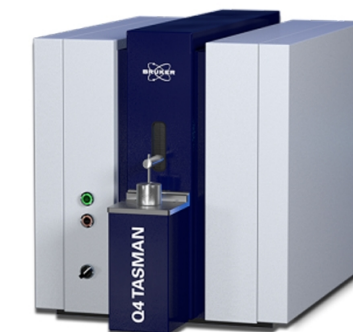

Based on the design know-how and excellent test/measurement facilities accumulated through years of experience and research, Sanghee Metal Co., Ltd. is doing its best to develop products that meet the needs of customers.
